<meta http-equiv="Content-Type" content="text/html; charset=iso-8859-1">
<meta http-equiv="Content-Type" content="text/html; charset=utf-8">
<meta charset="utf-8"/>
</head>
<body>
<h3>Somatória de dois números inteiros com Conversão de Dados</h3>
<script language="javascript">
<!--
/* Objetivo: Desenvolver um programa em JavaScript que faça a leitura de 2 números inteiros
                aplique a conversão de valores com parseInt e apresente o resultado da soma entre eles.
*/
/* Definição das Variáveis */
var js_n1;
var js_n2;
var js_soma;
/* Entrada de Dados */
js_n1 = parseInt(window.prompt('Informe o primeiro número: ' , 'Digite aqui'));
js_n2 = parseInt(window.prompt('Informe o segundo número: ' , 'Digite aqui'));
/* Processamento de Dados */
js\_soma = js\_n1 + js\_n2;
/* Saída de Dados */
document.write('O Resultado da soma= '+ js_soma);
//-->
</script>
</body>
</html>
```

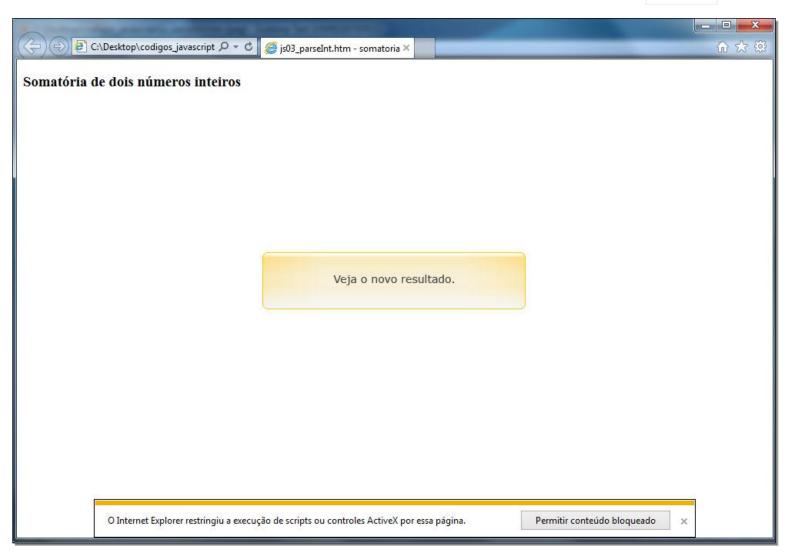

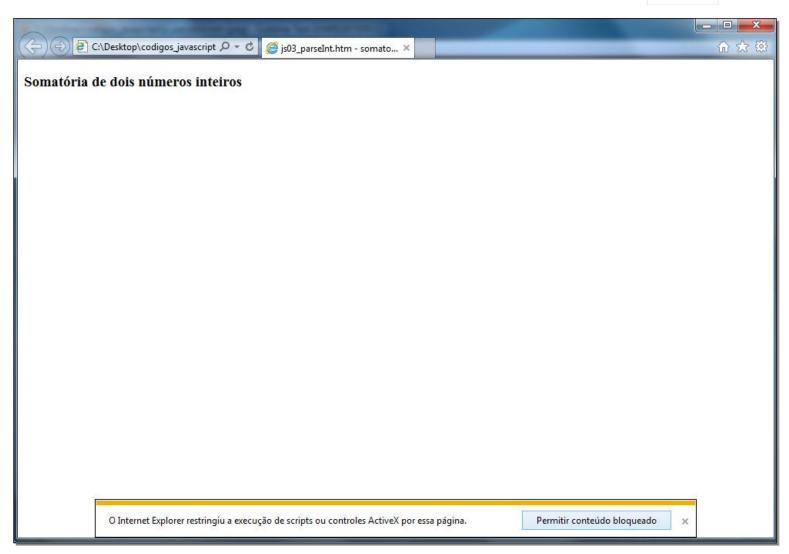

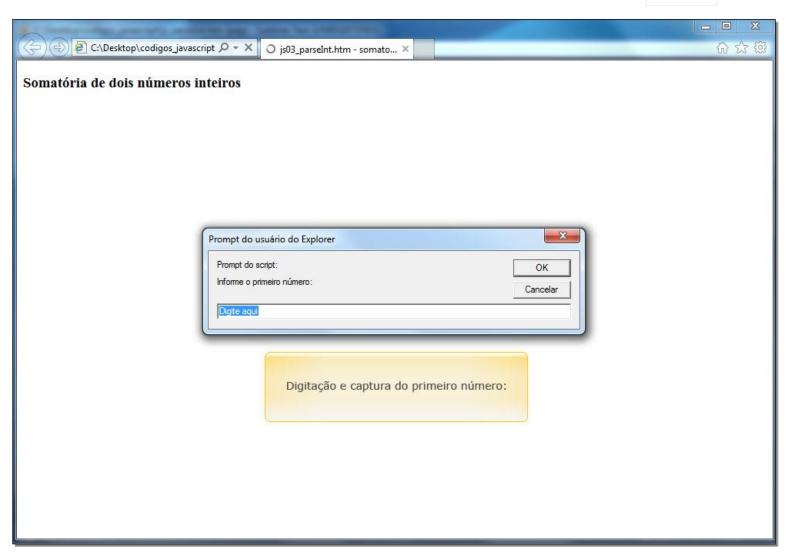

Execução do programa exemplo js03_ parseInt.htm no navegador (*browser*) padrão:

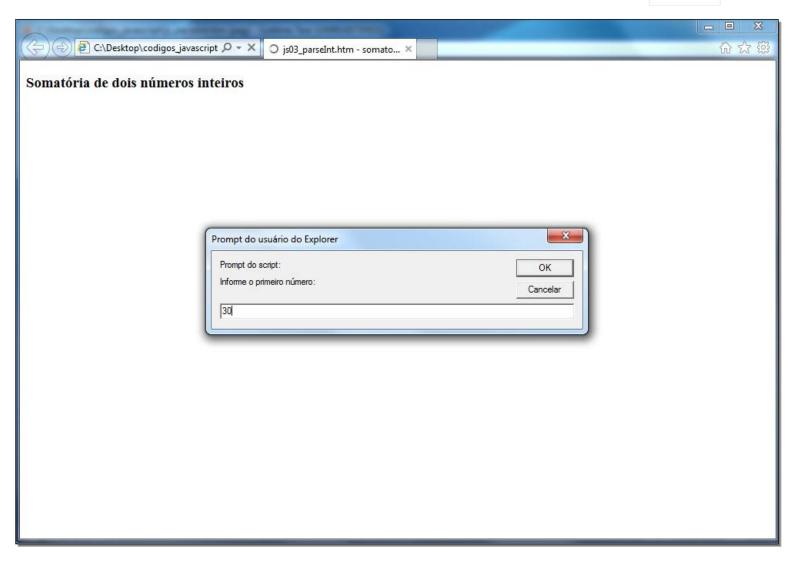

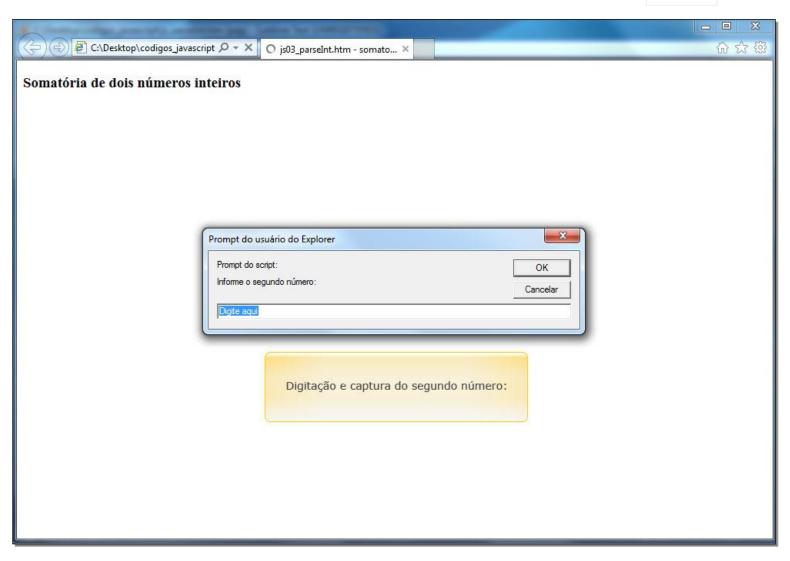

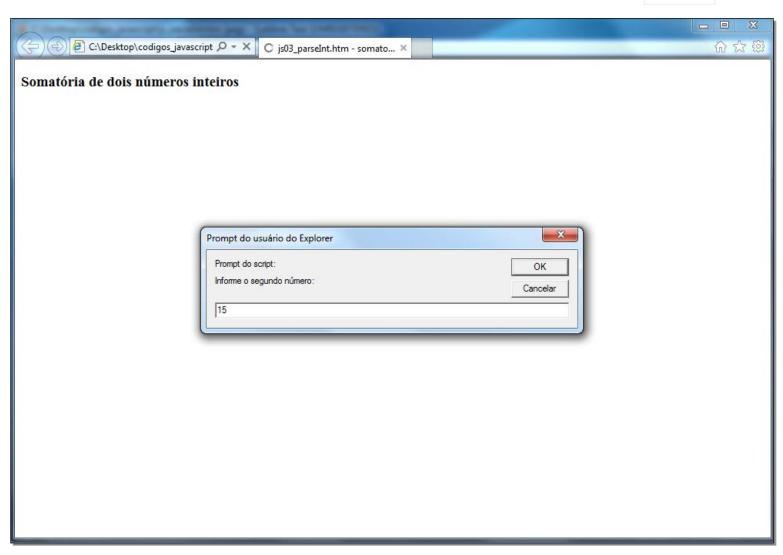

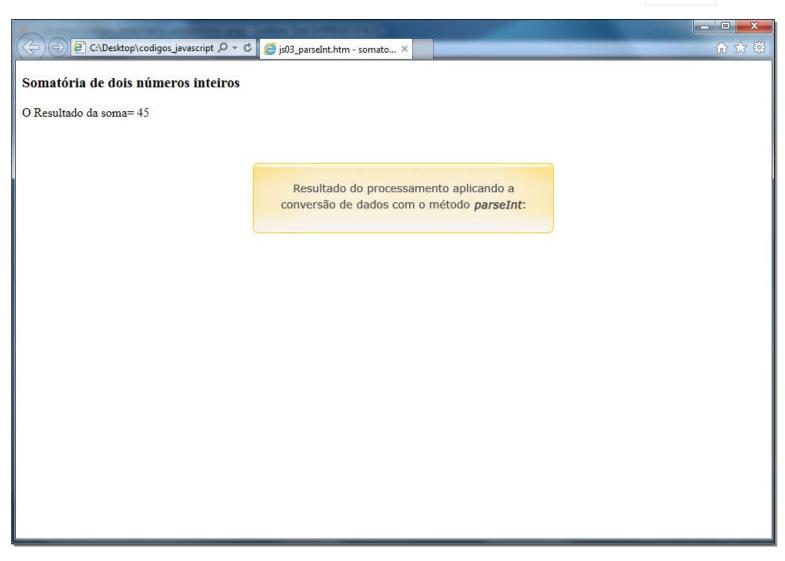

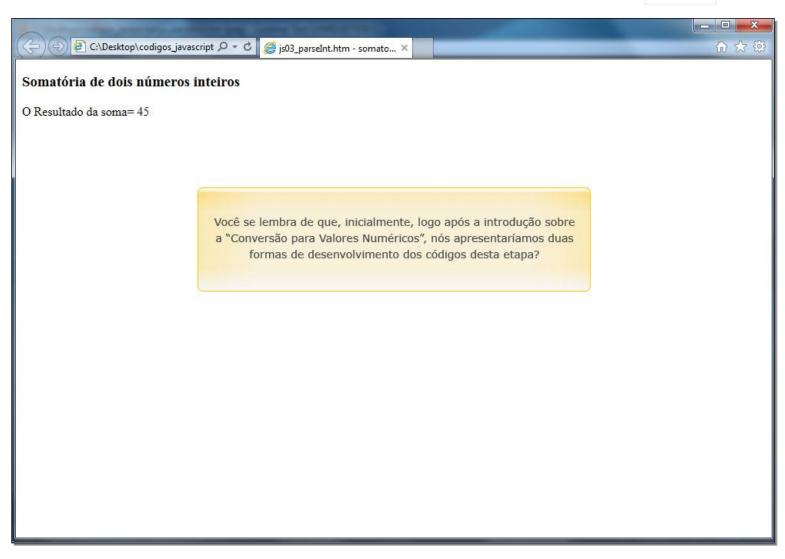

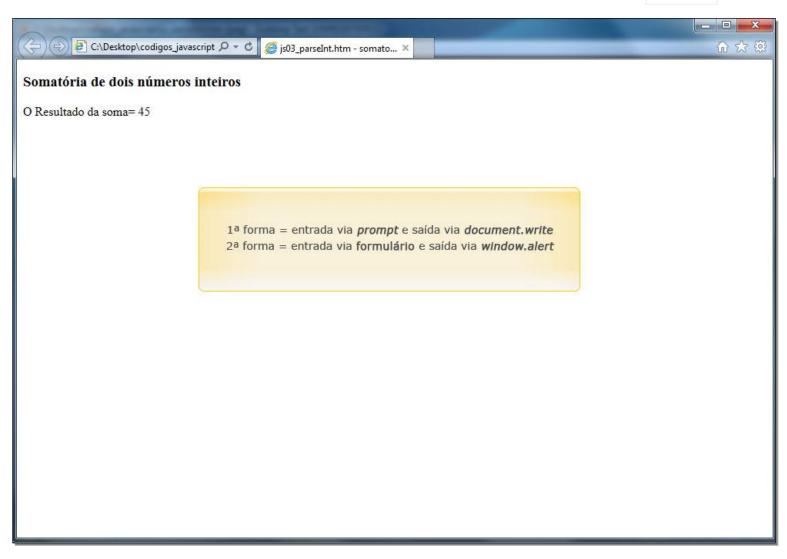

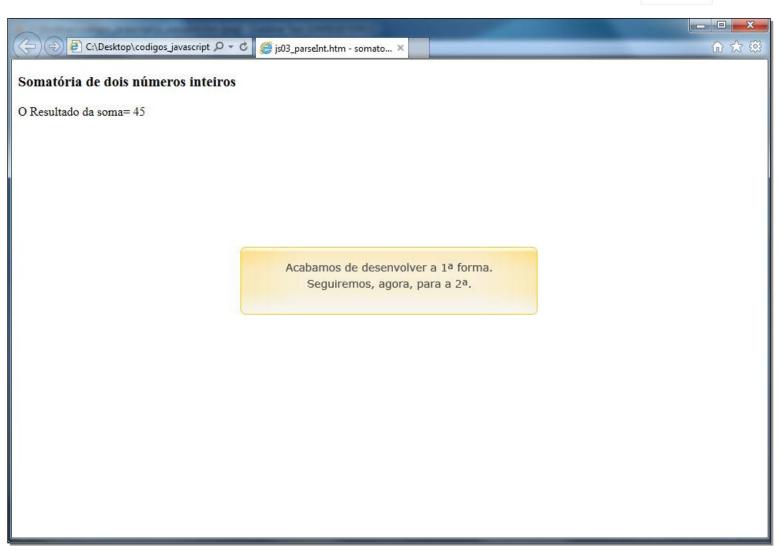

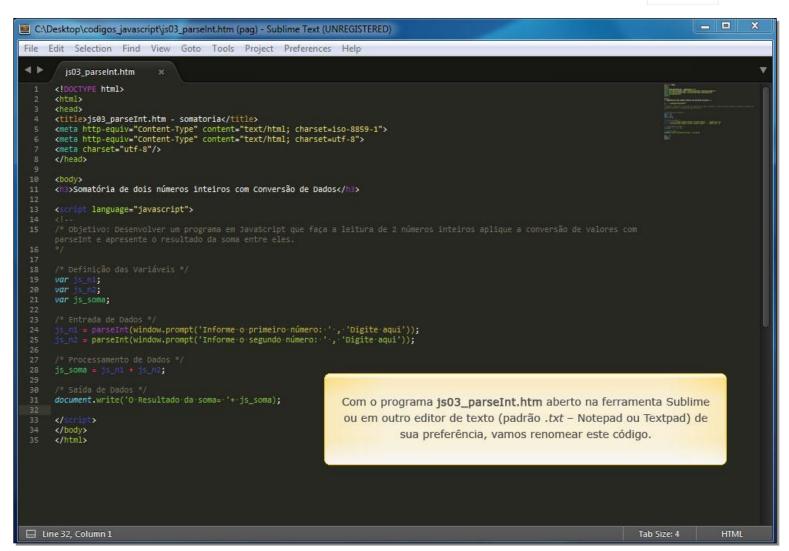

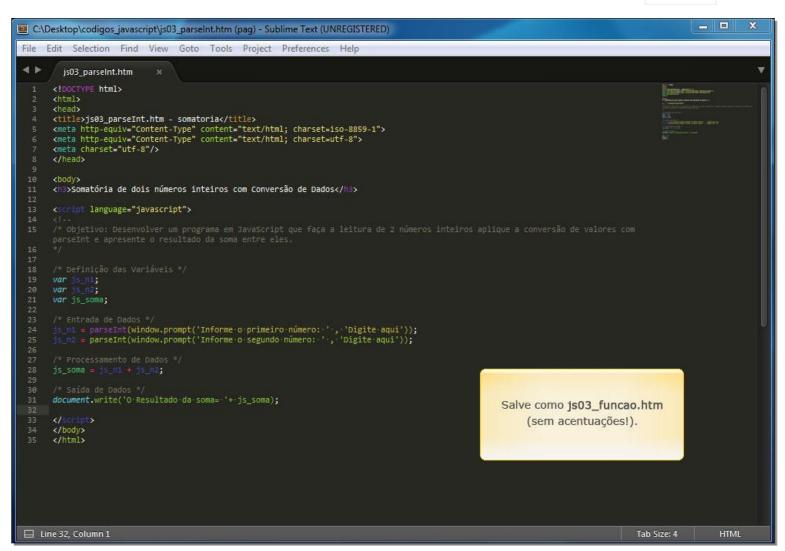

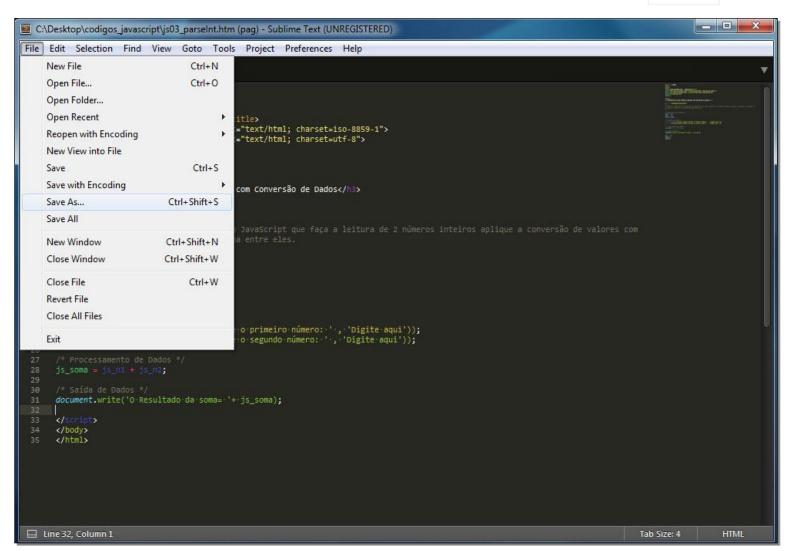

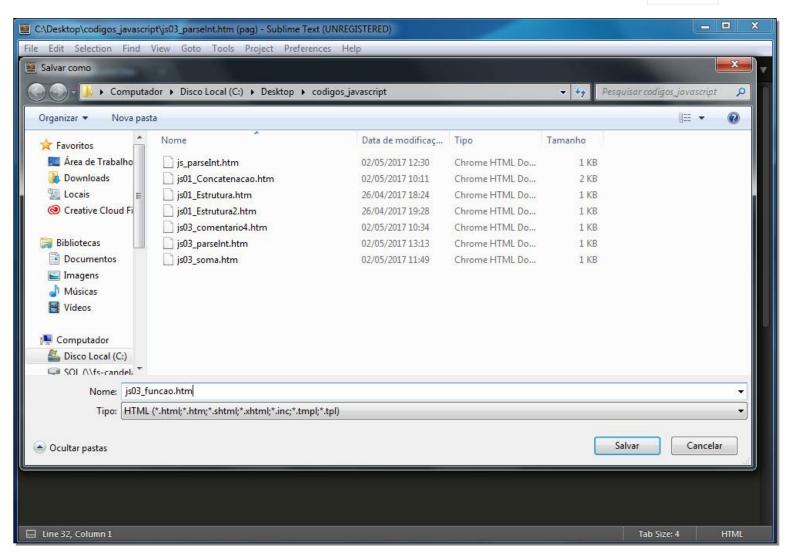

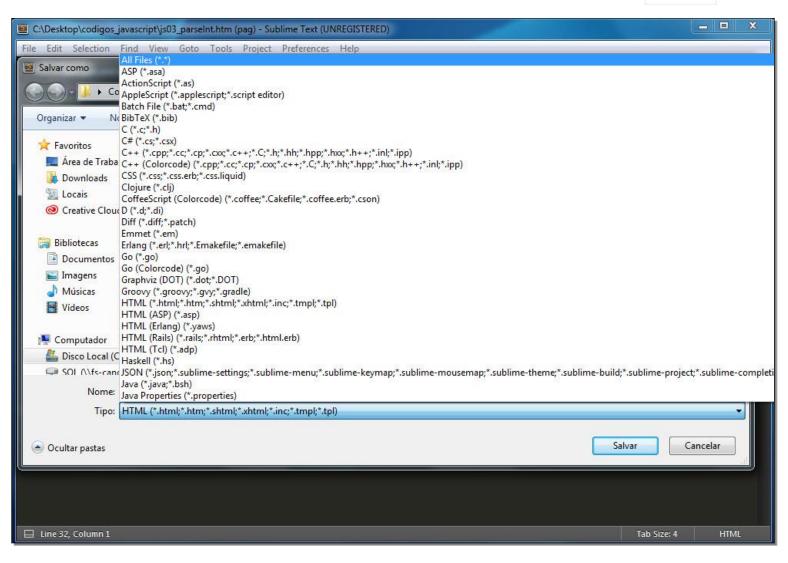

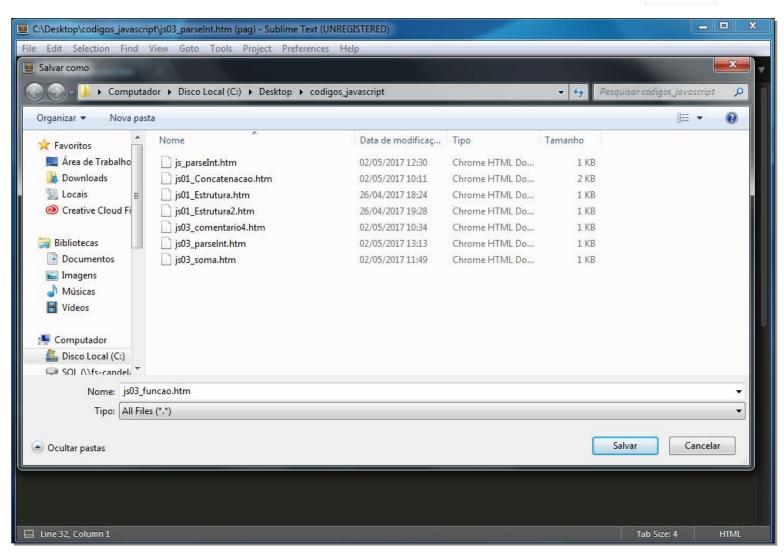

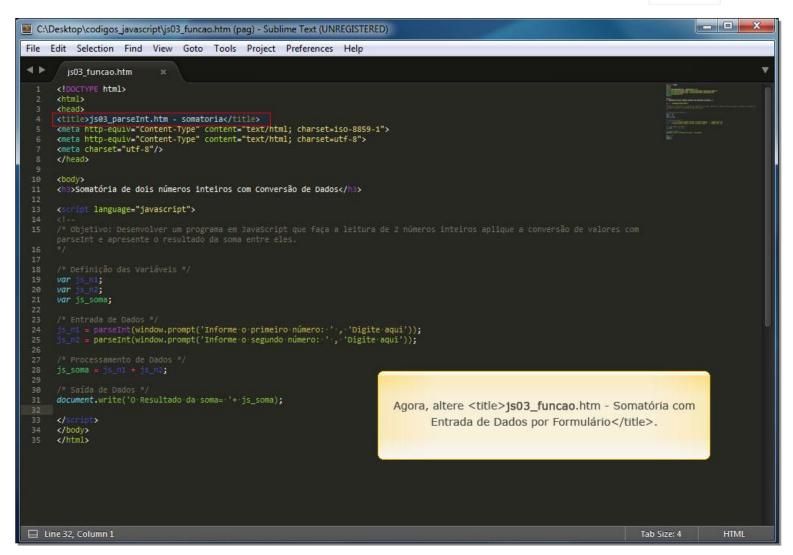

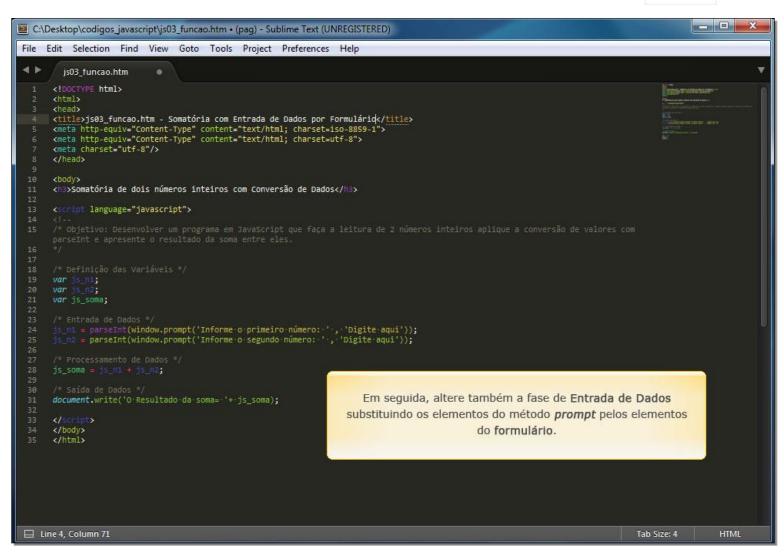

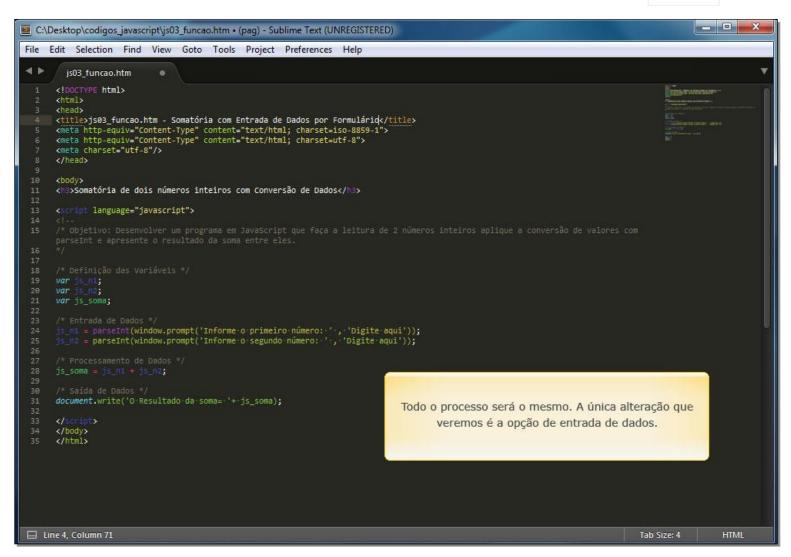

```
<!DOCTYPE html>
<html>
<head>

<title>js03_funcao.htm - Somatória com Entrada de Dados por Formulário</title>
<meta http-equiv="Content-Type" content="text/html; charset=iso-8859-1">
<meta http-equiv="Content-Type" content="text/html; charset=utf-8">
<meta http-equiv="Content-Type" content="text/html; charset=utf-8">
<meta charset="utf-8"/>
</head>
```

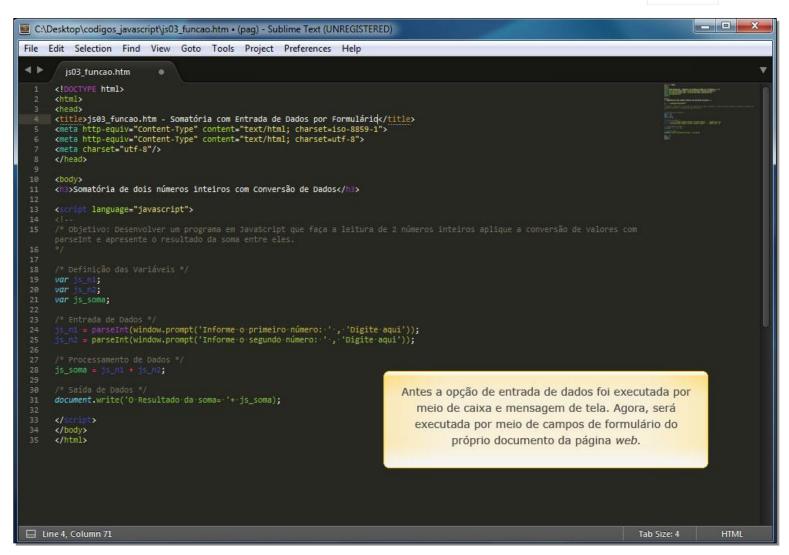

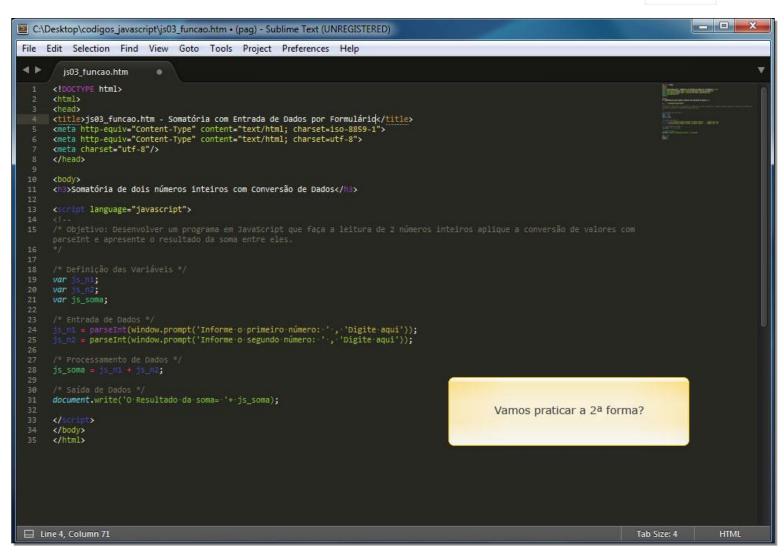

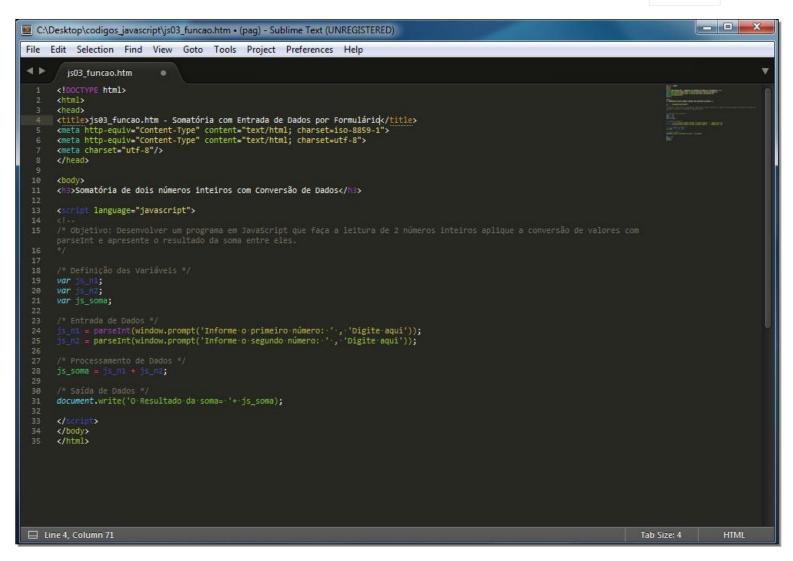

Programa: js03_funcao.htm

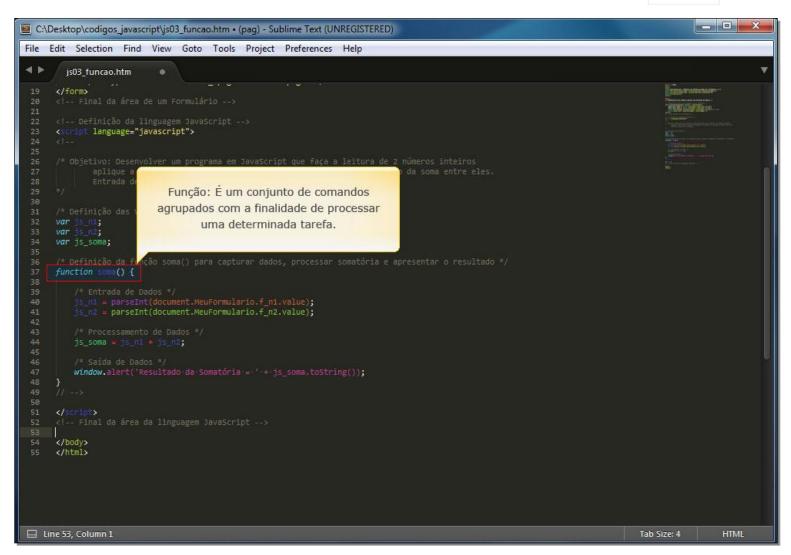

```
<!DOCTYPE html>
<html>
<head>
       <title>js03_funcao.htm - Somatória com Entrada de Dados por Formulário</title>
       <meta http-equiv="Content-Type" content="text/html; charset=iso-8859-1">
       <meta http-equiv="Content-Type" content="text/html; charset=utf-8">
       <meta charset="utf-8"/>
</head>
<body>
       <h3>Somatória de dois números inteiros com Conversão de Dados e Entrada de Dados por
       Formulário</h3>
       <body>
       <!-- Definição da área e dos elementos de um Formulário -->
       <form name="MeuFormulario" action=" " method="post">
       Entre com o valor 1: <input type="text" name="f_n1" />
       Entre com o valor 2: <input type="text" name="f_n2" />
       <input type="button" name="btn somar" value="Somar" onClick="soma()" />
       <input type="reset" name="btn_apagar" value="Apagar" />
       </form>
